

LAMP: Language Acquisition through Motor Planning

November 12- 13, 2014

**Barren River Area Development District (BRADD)
177 Graham Avenue • Bowling Green, KY 42101**

The Green River Regional Educational Cooperative Exceptional Children Division is pleased to present *LAMP: Language Acquisition through Motor Planning*. This training is targeted for speech and language pathologists, occupational therapists, Autism specialists, low incidence consultants, special education teachers, and assistive technology specialists.

Teresa Parrill, Trainer for the Center for Autism and AAC, will present the following extended LAMP workshop using video demonstrations, discussion and hands-on use of devices:

- Overview of the LAMP approach – background information and components
- Why children with Autism benefit from using AAC output devices
- Device features that aid in teaching language to children with Autism
- Videotaping of three local clients that will be used to illustrate treatment components of LAMP and to facilitate discussion regarding assessment and implementation
